

## Company profile

Groundworks, building and external works across the Ribble Valley and Lancashire.

We welcome tender enquiries from architects, surveyors, main contractors and housing providers, alongside enquiries from homeowners. Packages can be discussed individually or as part of a wider scope of works.

### Groundworks and foundations

Site preparation, excavation, footings, raft foundations, concrete slabs and groundworks to slab level.

### Building and alterations

Extensions, renovations, structural building works and commercial units, priced against the project scope.

### Drainage and civil engineering

Foul and surface water drainage, attenuation, drainage repairs and associated civil engineering works.

### External works and access

Retaining walls, paths, ramps, paving, driveways, car parks, fencing and landscaping.

### Send a package for quotation

Please include drawings, specification or bill of quantities, project location, tender return date and proposed programme. Flag access restrictions, occupied properties and any required accreditations.

We can provide itemised pricing with inclusions, exclusions and assumptions clearly stated. Availability and project requirements are discussed before appointment.
